Without attempting o go into a detailed review of the address at this time it can be said that the great ending questions of the day are considered in a calm, logical spirit that at once shows urnose to so conduct his administration hat it will redound to the credit of the country and promote the welfare of the whole people. This action is in entire 'accord with the spirit and intent of the law. We now have an efficient force, a, fact demonstrated by the good order maintained in our city, by the rigid examination to which the men were subjected and by the absence of any complaint against a single member, this last circumstance being especially compil-mentary to the force. The doly of Mayor Bragg therefore is entirely clear in the matter.
